RED DEER, ALBERTA, JULY 27th, 1910.

Subscription \$1.00 per year.

HE WAS SERVED RIGHT!

He came in from the country from a long distance a few days ago to buy his haying and harvesting supplies from us, and he was served right. And YOU will be served right if you come here to have your wants filled.

We have been serving a great many people rightly for a great many years, and this is the secret of this store's success, for its success didn't "just happen"—it is the result of steady and continuous planning and effort.

If you are not a customer of this store, won't you give it a trial when you are buying your haying and harvesting supplies, just to see if we can "make good."

The Recollection of the Quality remains long after the Price is forgotten.

Make Hay While the Sun Shines.

The problem confronting every farmer and stockman in Alberta this year is that of providing roughage for the coming winter. Hay will not only be high but very high. The timothy crop is light; straw of all kinds with the exception of winter wheat is short. Every market that has had to be supplied from Alberta in the past will look to her again this year for feed. Besides this, other points which have produced enough for their own needs in previous years or had feed to export will import largely during 1910 and 1911; those sections which have been favored with rain can do much to supply them and it behooves the farmers of those sections to do their utmost to that end, and by so doing they will be well paid for their efforts.

Every acre of grass land that can be mowed should be mowed. In driving through the country we see numerous places in which half a day's brushing will enable one to secure a ton or more of hay. There is no kind of farm work that will pay better this year than brushing out these places.

An acre of early sown rye and used as a pasture will easily take the place of a ton of hay during the late fall and spring months and every farmer should sow at least a few acres.

Calgary vs. Red Deer.

The Calgary cricket club remained over on Saturday last and played a game with Red Deer. The bowling of the Calgary team was very effective. The Red Deer eleven retiring for 30 runs in the first innings. The only ones making a stand was Winfield who reached double figures and Norquay who carried his bat for 7. Calgary by good batting ran up a score of 86, but they were given several lives by rather loose fielding, several good catches being missed. Although Stephenson's bowling was good he was unable to reach the visitors' wicket although he took one of the best men the first ball. Mr. Hewitt, one of the Calgary team was struck over the heart by a fast ball, from J. Mann's bat, which laid him out for a time. Red Deer were a little more fortunate in their second innings they being able to run up 54 when time was called the Calgary team being to leave at five o'clock to catch their train. The match was decided on the first innings. The following is the score:

Red Deer, 1st Innings	
L. Williams b Dangerfield	3
R. Alford b Dangerfield	0
Chapman b Dangerfield	2
Mann run out	2
Winfield b Hall	0
B. P. Alford b Dangerfield	0

Mr. Ralph Griffin, of the News, is making a triumphal tour thro the Province. Some people think he has gone for political purposes but they have another think coming. His whereabouts at the present time is known but he is probably at Stettler and he is almost certain to come back.

The Alberta Central

WORK STARTS SOUTH OF TOWN

A large number of teams were put on the grade of the Alberta Central Railway, on section eight, south of the Memorial Hospital on Monday and work on this part is in full swing. Brushing the right of way goes merrily on, and teams follow on with the plow and scraper. The grade is made through the farm of Mr. Fitch on section seven and the grade on the hill will go to meet it and will also extend eastward.

The Alberta Central Railway officials received word from the Railway Commission on Monday withdrawing all objection to the location of the line and this is the reason for starting operations south of town and the line will be run eastward, probably through the proposed yards on section nine, at once.

Trimble's Ayreshires at Winnipeg

A. H. Trimble & Son, after carrying off everything in sight with their fine herd of Ayreshires at Calgary, took them to Winnipeg Exhibition and there they took a goodly share of the prizes. They took second and third for herd bull and four females, any age; second for herd bull and three females under two years; second for herd of three animals bred in the west; and second and third for two calves under one year old. It seems rather strange, and shows the uncertainty of show rings, that Mr. Trimble's herd bull, after defeating the best bull at Calgary, that took sweepstakes at the great Seattle Fair, should be defeated at Winnipeg by the same bull, but such is the fortunes of war. The bull in question is owned by J.M. Bruce, of Lashburn, Sask., and out of R.R. Ness' herd, of Howick, Quebec, the herd from which Mr. Trimble got his prize winners.

A Beautiful Organ.

The new pipe organ presented to the Leonard Gaetz Memorial church is a beauty and one of the finest in the centre west. It was presented to the church by the Gaetz family in memory of their late mother. H. H. Gaetz, on behalf of the family, presented the organ to the church a week ago Sunday. Rev. Mr. Huestis accepting the generous gift in suitable terms. The organ is a two manual, with pneumatic action, 20 speaking stops of 61 notes each, seven couplers and double acting pistons and is entirely modern in every respect and harmonizes nicely with the interior of the church.

The artistic manner in which Mr. Welton handles the organ was greatly admired and the music of the large choir blended nicely with the grand strains of this most beautiful of all instruments. In the evening Mrs. Porter, of Winnipeg, and Mrs. Dr. Collison assisted. Mrs. Collison's rendering of "The Holy City" was superb.

WEDDING BELLS.

STEWART-NEULAND

On Saturday, July 16th, at 12 o'clock, there occurred in the Baptist church, Didsbury, Alta., the wedding of Miss Laura May, only daughter of Mr. and Mrs. Frank C. Newland, of Three Hills, Alta., and Thomas Stevens Stewart, of the firm of Stewart Bros., Penhold, Alta.

At the conclusion of the ceremony, which was performed by Rev. J. W. Telford, of Olds, Alta., the happy couple left for the Pacific Coast on a two weeks' honeymoon. Upon their return Mr. and Mrs. Stewart will reside at Penhold, Alta.

PEACOCK-GODLEY.

At Innisfail, by the Rev. Thos. Philips, Grace Lenore Godley to William Wilfrid Peacock.

Heaps of prisoners, with no accommodation at the barracks, is the condition of affairs at Calgary.

THE PRESBYTERIAN LADIES' COLLEGE.

The meeting of the committee appointed by the Presbyterian Church of Alberta to decide the location of a Presbyterian Ladies' College, held yesterday in Red Deer, discussed offers from Strathcona, Camrose, Vermilion, Hardisty and Red Deer.

Camrose offered a free site and several thousand dollars.

Free sites and offers of funds were made from other places.

Red Deer offered free sites and some thousands of dollars.

The afternoon session adjourned to meet last night and as we go to press we had not learned the result of the meeting.

It is hoped Red Deer's superior facilities in water works, sewerage and central location in the province may result in this town being selected as the location of the college.

LATER

Red Deer was finally selected subject to certain conditions being fulfilled by the Town.

Great Waterways Co. Abandons the Field.

The failure of the Alberta and Great Waterways Railway Co. to meet the first instalment of interest on the bonds due last week eliminates the company from the project. The province of Alberta had to meet the obligation and do so. This leaves the province with \$7,400,000 with which railway construction may be secured in what sections seem best. So far the bargain has cost the province \$55,000. Why the company abandoned the enterprise is a mystery as the royal commission has done nothing to invalidate the contract.

Sylvan Lake News.

There is probably a larger crowd than ever before at the Lake this year. All the old-timers are here and also many new families, while numerous visitors come to spend a day or two, or the week end, etc. Efforts are being made to still further beautify and improve the surroundings by the clearing away of brush, the erection of new cottages and wharves, building of new roads, etc. Fishing is very good this year, though as yet no black bass have been seen to our knowledge, and the two hotels put up good and cheap meals. Many people have the idea that living comes high out here but that is a mistake. Once a person has a tent and cooking utensils he can live on a dollar a week, yes you bet and have money to send home to the folks as well. Everybody should come out, there is plenty of room and the water is fine when it isn't too wet or cold. If only the Alberta Central had touched here we would soon be a mighty city. We forgot to mention is that you can play football here on Sunday without anybody raising any particular objections.

Had a nasty little storm on Sunday. Archambault got a nice little bunch out in his launch and when the storm caught them out some distance from shore the engine got flooded and wouldn't go. On account of the wind it was only possible to get the row boat out once and get the feminine portion of the passengers. The masculine portion had to jump in up to their necks and wade for the shore and see they got all wet and they will be on shore when it storms again. But this would only happen once a year.

The road from Town is better this year than it has ever been and you should see the autos and bikes hitting the high spots. Len Gaetz went out from town in the auto in something like thirty minutes and he said he really could have made good time if the gophers and coyotes would only keep off the track. Clare Smith came in on his wheel in fifty minutes.

The Knights of King Arthur broke camp the end of last week, but the Y.M.C.A. are here for a while yet.

Quite a merry bunch were up from Markerville Sunday, and a party were also down from Blackfalds.

Montreal is filled with typhoid.

Frank Mott M. A. A. A.
AUCTIONEER
Union Jack Auction and Real Estate Office
GAETZ AVE. NORTH

Alberta's Autonomy.

(Edmonton Journal)

From the sale of a part of its one-quarter of the town lots in the new mining camp of Stewart, on the Portland Canal, the British Columbia government realizes nearly half a million dollars.

From the sale of a part of the province's interest in the Prince Rupert townsite British Columbia has already realized two million and a half, and well informed real estate men estimate that the total, which will eventually be realized from this source, will be in the neighborhood of eight million dollars.

From the sale of government land at Point Grey, adjoining Vancouver, the provincial government realizes more than the total cost of all the provincial building in the city of Vancouver.

On a basis of present market value, it is estimated that the province of British Columbia owns at the present time real estate in the various townships in the province to an aggregate value of fifty million dollars, and notwithstanding that sales are being held from time to time. British Columbia at the time it entered confederation, refused to come in except on the basis it should own all its timber, mines, water powers and lands, and that the natural resources should remain the property of the province.

By a law which requires persons plating townsites on land acquired direct from the crown, to hand over one-fourth of the lots to the province, British Columbia becomes possessor of an asset which is already worth fifty millions, from which it has derived during the past five years more money than the province of Alberta has derived from the Dominion treasury altogether, and which is increasing in value year by year.

Alberta is deprived of the opportunity of profiting in the same way on account of the fact that under the terms of autonomy the lands within the province were not turned over to the province.

While British Columbia has a tangible asset in its real estate alone of fifty millions, and has millions of cash on hand, the province of Alberta has practically no assets except the ability of its people to pay taxes, and with a treasury more empty, if possible, than the words of its chosen statesmen, it faces a deficit of somewhere between five and ten million dollars.

It is not necessary to point out where the blame for this state of affairs rests. The electors of the province of Alberta who allowed themselves to be deluded by heaven-born statesmen working in league with the oligarchy at Ottawa who forced upon the province the violation which was named autonomy, have long ago realized the enormity of the crime that was committed against them.

Penhold Rifle Shooting.

The following are the scores for the shoot on Saturday, July 18th, and again the junior members shine. This week we find that the east range men have made a much better showing than the west; if the east range men keep it up the salver may find a resting place east of Penhold.

x F. Donomey	33	25	32	90
x T. Hives	31	21	26	78
x J. Farrar	29	34	23	86

H. Henderson	24	28	17	69
W. J. Henderson	25	23	19	67
x F. Donomey	23	30	9	62
T. Kennings	25	23	18	66

Those marked with an x opposite belong to the east range. Buck up, west range men.
A. W. WALKER, Sec.

Manitoba Binders Have Been Started.

Brandon, Man., July 18.—John W. Brougham, of the Crawford district, about fifteen miles northeast of Brandon, brought to the city today a sample of what standing fifty-six inches. The wheat is growing on summer fallow and gives every indication of producing a great crop. Mr. Brougham says the conditions are none too good in his district, but with ample moisture this week the average will be fair. Barley cutting commenced on the farms of W. Buckley and Thos. Clark, of North Brandon. Mr. Buckley for the past eight years has been one of the first in the province to start cutting and this year is earlier than ever. The crop is a fair one, considering the dry season.

Local & General

Miss May Rogers has returned from a pleasant visit to Great Falls, Montana.

Councillor H. H. Gaetz is enjoying a visit to Penticton, B.C.

Mr. and Mrs. J. Sellick, of Kemptville, Ont. are the guests of Justice and Mrs. Wallace.

Miss Jennie McLeod, who has been poorly for some time, is some better and has gone out to the Lake for a few days.

Mr. and Mrs. Halliday, of Field B. C., were the guests of Mrs. W. E. Lord last week.

A petition was circulated in Red Deer last week asking that the Town take over the rink property and build a rink for skating and curling purposes thereon.

The accommodation of the hotels and stopping places at Sylvan Lake have been taxed to the utmost the past fortnight.

Rev. L. E. Gosling, of Ridgewood, is sick at Red Deer Memorial Hospital. Mr. Farr, of the Cumberland field, conducted Mr. Gosling's services last week and Mr. McMechan took Mr. Farr's work.

On Wednesday evening last an exciting match of cricket took place between the married and single men of the Club. The married men won by two wickets and fifteen runs on the first innings.

Mrs. Jos. Wright, of Calgary, is visiting her father Sage Banerman.

G. C. Hyde and W. W. Duncan, in taking a trip through the west last week paid their respects to J. Grant MacGregor as they were associated with him on engineering work on the Guelph and Goderich railway.

A piano trip, unique in the settlement history of the Red Deer district, has just been made, a Palmer piano having been taken by road from Red Deer to the Clearwater river for Mr. E. Bowen, farthest west of any piano from Red Deer. This was supplied by the Wright Agency, and despite rough trails arrived in perfect trim.

Judgeship Rumors

An apparently well authenticated rumor is abroad that Mr. W. L. Walsh will be appointed to the vacancy on the Supreme Court bench of the province, created by the resignation of Chief Justice Sifton. The same authority states that the vacancy in the district court, created by the resignation of Judge Mitchell, will be filled by Judge Winter, of Lethbridge and his place filled by the elevation of Mr. D. H. McKinnon of Strathcona, to the district court bench with headquarters at Lethbridge.

The King Drag.

Since 1896 the King Drag has been before the rural residents of the United States, and by its use hundreds of miles of good roads have been maintained at little or no cost in the granger states. No report of the use of this valuable and simple remedy for bad roads is on record here.

The use of the drag is little short of miraculous, and the stories told of its effects are disbelieved by those who hear them for the first time. A slight experience soon convinces the sceptical, and once the drag has been used nothing else will satisfy.

The drag is merely two heavy pieces of scantling, attached together so as to form an oblique frame, which slants across the road when the horses are hitched up so as to draw the loose material to the centre. These two scantlings work wonders. They put a crown on the road. That drag it up.

As a result there are never any puddles. Puddles make holes, and with a proper crown and the resultant drainage there is an end to bad roads. Farmers who are the most unbelieving of mortals, will not credit the extraordinary usefulness of the drag, but it makes the country roads as good as a Macadam street.

It is usual in the states for the farmers to use it to drag in front of their own farms. The result is a smooth road all the way to town. Why shouldn't the Red Deer farmers try the King Drag?

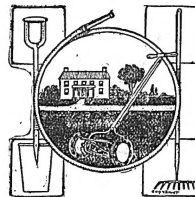

Customer—"See here waiter! I found a collar-button in this pie!"
Waiter—"Didn't see nothin' of an umbrella did yo', boss? Dah was one los' heah las' night."

No "Flying Start" required with this Mower

If your mower isn't a Frost & Wood, very likely you have to back it up several feet and get a "flying start" before the knives will cut. That is because it is made on the External Gear principle.

Now, with the Frost & Wood No. 8 Mower the knives commence cutting the instant the horses begin to move. That is because the No. 8 is designed on the Internal Gear principle.

Frost & Wood No. 8 Mower

We could tell you here the difference between External Gear Mowers and Internal Gear Mowers, but it would require a lot of space, and we can explain the difference more readily if you'll drop in and see us. We also want to show you the Large Bearings used in the Stay-light Connection between Cutter Bar and Main Power Frame, as well as the Double Brace used to protect the working parts from jars and jolts—and several other features exclusive to the Frost & Wood No. 8 Mower. Call and see us at your earliest convenience.

**THE WORK THAT
REQUIRES HAND
IRONING**
LADIES' SUMMER GARMENTS
ARE A SPECIALTY OF OURS.

We have ironers for this work who are
experts. It is only reasonable to
say that they can launder such garments
better than they can be done at home.
Our way saves a lot of hot, tiresome
work, too.

**RED DEER
Steam Laundry.**

ADVENTURES IN CLOUDS

COUNT ZEPPELIN DESCRIBES HIS WORK IN THE AIR.

Great German Inventor Who Has
Perfecting the Dirigible Balloon Has
Spent His Last Penny In His
Fight to Fly—He Has Had Many
Narrow Escapes From Death—
Countess Has Helped Him.

If there is one thing which the
world and his wife admire more than
another, it is pluck and perseverance.
For that reason it is not difficult to
understand the enthusiasm aroused
on the continent by the flying feats of
Count Zeppelin. For fifty years he has
been striving to solve aerial navigation.
He has begged his money, spent his
whole fortune of \$100,000, borne
the gibes and ridicule poured upon
him by sceptics, risked his life time
after time, and yet never abandoned
faith in his idea.

In the following words he described
his aims to an interviewer a short
time ago:

"I intend to build a vessel which
will be able to travel to places which
cannot be approached—only with great
difficulty—by other means of
transport; to undiscovered coasts or
interiors; in a straight line across
land or water where ships are not to
be sought for; from one fleet station or
to another; for the purpose of
despatches; for observation of the
movements of hostile fleets or armies
and for active participation in actual
warfare.

"My balloon must be able to travel
several miles in any direction, in
any season, day or night, and must be
able to land without injury to itself
and to possess sufficient rigidity and
non-inflammability to ascend, travel,
descend under ordinary conditions."

And the count has succeeded to the
extent of being able to travel several
hundreds of miles.
"But I am not satisfied," he re-
marked. "The German Government
wants an airship which will fulfill the
following conditions: First, it must be
able to manoeuvre in the air for
twenty-four hours; secondly, it must
be able to land without injury to itself
either on water or earth; and in the
last place must be able to ascend
to such a height that it can not be
injured by bullet-fire. Stringent
conditions? Yes, but very necessary
for the purpose of real service. Do I think
I can manage to fulfil these conditions?
Of course, it is impossible to say, but
I am going to try."

And this wonderful master of the
air spoke with that quiet earnestness
which almost convinced one that he
would succeed, in spite of the fact
that he is over seventy years of age.
He is a man who speaks little of the
past. From other men one learns of how
at one time he became so poor that he
had to live in a little cottage on an
allowance made to him by his wife.
When, thirty years of age, he married
the count married a lady belonging
to one of the German aristocratic
families, his friends and relatives
who had regarded him almost as a
lunatic on account of his devotion to
the task of inventing aerial machines
thought that his wife would wean him
from his eccentric ways. But in this
respect they were disappointed.

The marriage itself and the ensuing
honeymoon interrupted for a time
Count Zeppelin's devotion to his re-
search work, but within a year of
the wedding day he was again hard
at work on the solution of the prob-
lem, aided and encouraged by his
young wife. Year by year passed,
and still the arduous and sometimes
frustrating task of the most re-
fined contrivances for the most
refined and useful purpose. He was
however, fully agreed that he should
devote his whole life to the task
of teaching mankind to fly.

The count has followed with un-
wearying interest and self-sacrifice
the scientific research which involved
the expenditure of their entire for-
tune, and Count Zeppelin is the first
admirer of his wife's devotion to the
encouragement of his wife.

For over thirty years the count de-
voted himself to the construction of
flying machines, "but," he remarked,
"the risks were too great and the suc-
cesses were too rare to warrant the
continuation of such experiments. On
one occasion I fell from a height of
forty feet, but happened to alight on
a pile of straw, which broke my fall
and saved my life, although I re-
ceived a number of painful wounds.
On another occasion I fell from a
considerable height, but again had
the good fortune to alight on soft earth
without sustaining more than a broken
leg. These were but two of a
number of accidents which led me to
finally abandon the flying machine for
the navigable airship."

The adventures of Count Zeppelin,
however, would almost fill a volume,
far, apart from his exciting experi-
ences in connection with flying ma-
chines and balloons, he has had in-
numerable adventures. He fought in the
Franco-German War, and is said to
have been the first German soldier to
cross the frontier into France.

Boiled Water In Ancient Times.
Now that the use of boiled drink-
ing water has become common it is
interesting to be reminded that an
ancient method of guarding against dis-
ease was practiced in ancient times.
Herodotus tells how Cyrus had his
drinking water boiled and carried in
silver vessels, and Pliny the elder
relates that Nero had water boiled
and afterward cooled for drinking by
placing it in glass flasks surrounded
with snow.

**Dr. de Van French's Female
Pills—The Wife's Friend.**
A reliable regulator; never fails.
While these pills are exceedingly
powerful in regulating the menstrual
portion of the female system, they are
strictly safe. Refuse all cheap
imitations. Dr. de Van French's
\$5.00 a box, or three for \$10.00. Mailed
to any address. The Seaboard Drug Co.,
St. Catharines, Ont., or at Parker's,
Drugs and Stationery.

BASEBALL BOYS

CHINESE CAPITAL BEKIN.

(Strathcona Plaindealer.)
A team of ball players, rep-
resenting Strathcona went south
this morning to Red Deer, where
they met to learn the result of
this afternoon. Red Deer has a
nine that has been playing a
strong game in central ball circles
but the locals hope to take their
soap in this first meeting.

MODERN PEKIN.

Chinese Capital Beekin With
Electric Lights at Night.
Modern Pekin, China's great cap-
ital, has its telegraphs and telephones.
Every official and prominent business
man now has his own phone. The
service is under the Government
Board of Communications, and it is
good. A few years ago the city had
no street lamps, but candles placed in
side a wooden framework locked with
white paper. It was impossible to
walk the streets after dark without a
servant and lantern and the night life
of the people was confined to their
homes. At that time a story was cur-
rent in the foreign press that the
Government appropriated \$50,000 a
year for lighting the city, and that
this sum was distributed as follows:
The official in charge of the matter
took \$40,000 as his share and the
rest \$10,000 was divided among the
chief lieutenants, who pocketed \$20,000
and gave the balance to a third man,
who made a similar division. The
distribution went on until the sum was
at last reduced to a few copper
cash, which were used to buy oil and
wick to be placed in saucer-like lamps.
They set the lamps on the street
and the city was lighted. The new
electric light plant stands close to
the wall of the Peking city, and the
smokestack is visible for miles over
the country. In addition there is a
plant which lights the city, and for
obvious reasons the legation city has
a plant of its own.

Coloring a Meerschaum Pipe.

Ordinarily a meerschaum pipe is
boiled for coloring in a preparation of
oil, which is absorbed by the pipe.
The coloring of wax is held on the surface
of the pipe and made to take a high
polish. Under the microscope the pipe
is seen to be made of a material of
oil of tobacco, which is absorbed by
the pipe, and its hue grows darker in
proportion to the tobacco used.

A meerschaum pipe at first should
be smoked very slowly, and before a
second bowl is smoked the pipe should
be wiped. This is to keep the wax
as far up the bowl as possible, and
rapid smoking will prevent the drying
of the wax off and leaving the pipe
dry and raw.

A new pipe should never be smoked
outdoors in extremely cold weather.
Fill the pipe and smoke down about
one-third, or to the height to which
you wish color. Leave the remainder
of the tobacco in the pipe, and do not
empty it, or until the desired color is
obtained. When smoking put fresh
tobacco on the top and smoke to the
same level.

When once burned the pipe cannot
be satisfactorily colored unless the
burned portion is removed and the
surface again treated by the process
by which meerschaum is prepared.
The coloring is produced by the action
of the smoke upon the oils and wax,
which are superficially applied to the
exterior of the pipe and are applied
in the same process of manufacture.

Europe's Highest Village.
"The highest village in Europe" is
the inscription on a postcard which
shows a group of wooden cottages on a
bleak hill, with no sign of vegeta-
tion in sight and having as a back-
ground a range of ice covered moun-
tains. The name of the place is Co-
cumaz, in the Canton Wallis. It lies
2,947 meters above the sea level, and
where Monte Rosa raises its giant
head into the clouds. The village
consists of four families, and the
latest census gives it a population of
twenty-six. The storms of spring
and fall and the snows of winter
months," says the sender of the card,
"make life a dreary one, and still
the people look happy, doubtless they are so."

Old Time Butterscotch.
Put three pounds of light brown
sugar in an enameled kettle with
three-fourths of a pound of butter.
Heat over a moderate fire to melt;
let it boil until thick, stirring all the
while to prevent scorching. Take the
kettle from the fire and pour the boiling
hot liquid into buttered tins or
upon a large flat metal platter. When
stiff enough mark off into big squares,
and when cold break these apart and
wrap each square in wax paper. But-
terscotch carefully stored will keep
for months. It improves with age.

Easily Explained.
An illiterate Polish servant girl
thought to conceal her ignorance of
the rudiments of English by telling her
prayer book with her when she at-
tended services, although she knew
the prayers by heart. One day an-
other girl looked over her shoulder
and remarked in a surprised tone:
"Why, what's the matter? You're
holding your book upside down!"
"Oh, that's all right," answered the
other, quite unmoved. "I always
read that way. I'm left handed."

Man's Future.
A man is a bundle of relations, a
knot of roots, whose flower and fruit-
age is the world. All his faculties
are rooted in nature out of him. All his
faculties predict the world he is to
inhabit, as the fins of the fish fore-
show his water existence or the wings
of an eagle in the egg presuppose a
medium of light air. Inmate and
you destroy him. He cannot live with-
out a world.—Emerson.

A Walking Hotel.
"After a visit to a famous entomologist
whose wonderful microscopes have
proved that there always some-
thing living to be found preying on
the least of the minutest creatures
last week an English tourist turned to
him and said:
"I came here believing myself to
be an individual. I leave knowing
myself to be a community."

Correspondence.

Red Deer, Alta., July 18th, '10.
The Editor of The News.

Dear Sir,—I noticed in the last
issue of the Advocate a short
piece headed "Should Stand"
relating to the vacant seat in the
Council, and the Editor of the
paper seems to think, by the way
he writes, that we need to have
men there to represent the town's
best interests who, like himself,
belong to a joint stock company,
but I beg to say I cannot see with
him, as I consider what we want
in our Town Council are men, in-
dependent of any one man or
company, who will work for the
best interests of the town inde-
pendent of company or party, or
what can be made out of the town
Board of Commissioners and a joint
stock company man as well. I
therefore protest against our
town of Red Deer being called a
joint stock company, as it is
termed in the Advocate, and if it
has ever been in the past, I trust
the yoke is broken, and that our
Councilors may be a body of men
who have the courage of their
convictions, casting aside all fear
or favour for the very best inter-
ests of the town as a whole.

Mr. Lord may or may not be the
people's ideal man for the seat,
I cannot say, but I feel sure he
will not take the seat unopposed,
as, although the Advocate
would prevail on him to stand,
there are others doubtless who
perhaps think otherwise.

Yours for the best we can get to
our town, and best it to stay by
all fair means in our power, I re-
main,
Yours truly,
F. MOTT.

Leslieville, July 19, 1910
To the Editor of The News

Dear Sir—
Allow me to express my dis-
gust at the contemptible attack
you have permitted some un-
known correspondent to make
upon a respected member of our
Leslieville community.

In reference to the paragraph
concerning a fire in the Lobstick
Valley which was attributed in a
previous article to the carelessness
of Mr. John Reid, and which
Mr. Reid in your paper de-
nied having started.

In that former report Mr. John
Reid was mentioned by name and
was denounced for starting a fire
and letting it get beyond his
control and thus endangering
many valuable cattle would die
for lack of the grass that was
consumed.

Now the writer has the audacity
to say that John Reid in his
denial of the matter has written a
paragraph that did not refer to
him nor to anybody else in par-
ticular. He speaks of "Theodore
Roosevelt's Ananias Club" of
which nobody has ever heard
before (perhaps if there is such a
club he knows of its existence
because he was a member of it.)

And instead of the frank and
humble apology which was due
from him for having published a
false report concerning a neighbor
he proceeds to write a lot of
miserable drivel and to make
further malicious insinuations
against Mr. John Reid.

The whole article is, as I said
at first, utterly contemptible, and
I am sorry we have amongst us
any one capable of writing such
slandrous folly.

But permit me to add that I
think you are greatly to blame
for printing this or any such
matter.

Yours truly
EDWARD WILTON.

[The Editor's position is a most
peculiar one. For interpretative
language Mr. Wilton is quite
equal to the previous writer. We
even out part of his remarks
referring to himself. Mr. Wilton's
own mouth condemns him be-
cause if we were as particular as
he desires us to be we certainly
would not publish his letter.—Ed.]

Count Rose-Ordons, who had
been committed to the asylum re-
turned to town last week only to
attempt suicide by drowning in
the river. He was again commit-
ted as dangerous to be at large.

Buffalo Express—"Baseball is
an awful game," exclaimed Aunt
Barbara.

It is not generally considered
so," her niece answered.
"Just listen to this," returned
auntie, re-adjusting her glasses
and reading: "Sooty brought
two men in, but died himself."
Any game that requires such
heroism is dreadful!" she com-
mented.

PILES.
You will find relief in Zam-Buk!
It cures the burning, stinging
pain, itching and brings
ease. Persistence with Zam-
Buk means cure. Why not prove
this? All Druggists and Store-
keepers.

Zam-Buk
FOR ALL SUMMER SORES

Rushing C. N. R. Road to Brazeau.

(Calgary Albertan)

"I have it on the best of au-
thority that there will be five
hundred teams at work next week
on the Canadian Northern branch
line from Stettler, west to the
Brazeau coal mines west of La-
combe, says Hon. Senator Peter
Talbot, of Lacombe, who was in
Calgary the other night.

"The line," continued Senator
Talbot, "will be built for fifty
miles west of Lacombe this season,
and the balance of the one
hundred and twenty miles will be
completed early in the spring."

The route of the line, according
to the final location which has
been determined, will go westward
from Stettler through Al-
la, paralleling the C. P. R. It
crosses the C. & E. at Lacombe,
the survey passing across part of
the experimental farm and the
farm of Senator Talbot south of
the town.

Besides opening up the Brazeau
coal mines, which are said to
contain the best steam coal in
America, the new line will give
railway facilities to a large ex-
tent of splendid agricultural land
and will be assured of a large
traffic from the day that it is
built.

The C. N. R. purchased the
lands last year from the German
development company and also
the charter for a railway from
Innisfail to the mines, but after-
wards decided that it would be
more convenient in order to get
the coal for the operation of its
lines in Alberta, to build through
Lacombe.

The construction of this line
will have a very special effect
on the town of Lacombe.

In connection with the above
a gentleman was down from
Blackfalds Wednesday who said
the line was not going through
Lacombe at all owing to engi-
neering difficulties. It would
pass through Blackfalds, and
surveyors were busy at work on
the line through the village.

The Executive of the Provin-
tial U. F. A. met here last
week, Messrs Bower, Tregillus,
Fream, Warner and Speakman
being present. It was decided to
have a meeting of the directors of
Red Deer on Aug. 10, when a
deputation will meet Sir Wilfred.

Chicago Tribune—"We're al-
ways careful about these con-
tagious diseases," said Mrs. Lap-
pling. "When Johnny had got
the measles we boiled the house
with sulphur candles and dis-
infectant the house from top to
bottom."

PENHOLD MISSION.

Rev. W. M. Scott, Pastor.
Antler Hill at 11.15 a.m.
Horn Hill at 3.00 p.m.
Penhold at 8.00 p.m.

Services will be held every
Sunday at 3 p.m. in Westholm
schoolhouse, commencing June
12th.

TRY THE MONEY-BACK CURE FOR INDIGESTION.

Nine times in ten stomach derange-
ments are responsible for sallow
complexion, dull eyes and thin body.
The stomach is the source of nour-
ishing blood to the muscles, the
nerves, and skin. If the stomach is
healthy, plenty of nutritious matter
will be absorbed by the blood. If it is
not healthy, the food will ferment, and
undigested will pass along through
the bowels, furnishing so little nutri-
tious matter that the blood becomes
impure, and the glow of health
vanishes.

If you suffer from nervousness, sick
headache, belching of gas, sour taste
in the mouth, heaviness after eating,
or any other miserable stomach dis-
turbances, you need Mico, and the
sooner you get it the quicker you will
be healthier and happier.
It will relieve any distressed stomach
condition almost immediately. It will
cure if used according to directions.
Gazet-Cornett Drug & Book Co., sell
it for 50 cents a large box, and they
think enough of it to guarantee it to
cure indigestion.

HYOMEI
(FARMHOUSE HIGH-O-ME)
CURES CATARRH, ASTHMA,
Bronchitis, Croup, Coughs and Colds,
and money back. Sold and guaranteed by

HIS MASTERS VOICE.

The Advocate gives the Town some fatherly advice in its latest issue stating "The Town of Red Deer and the Western General Electric Co. have been bucking each other for some years." We deny this statement. The Town has not bucked the Company. Councillor Galsbraith made that statement in the Council chamber and Mayor McKee defied him to show where the Town had bucked the Company and he could not. The Town objected to signing an individual contract and Judge Beck sustained the Town in its contention. Now the Advocate says, "let them have the individual contract by consent." The Advocate has always worked in the interest of the Western General, has always given the Town the cold shake, and placed the municipality in a position of hostility to the Company. It says the Town got the worst of the deal when the case was a draw, each side paying its own costs, and the Town winning the point regarding contracts.

When the Company is willing to meet the Council with any reasonable basis of compromise we feel assured the Council will be only too willing to meet them half way. If the Company are willing to reduce the cost of phones to the rate charged by the Government why in the name of all that is good and great do they not do so and show the citizens that they are acting in good faith in the matter? The Council can not be bluffed by the Advocate's veiled threat on behalf of the Company that unless the individual contract is allowed the case may be appealed to the Supreme Court and the Town lose all. The Supreme Court would we feel assured stand by Judge Beck's decision should the Company appeal the case.

Even if there is a possibility that the Town may have got the worst of the case we consider it had taste on the part of the Advocate to be eternally rubbing it into the Town as though there was only one bunch of men that knew anything in this fair town of ours and that was the Western General Company and the Editor of the Advocate.

ALBERTA UNFAIRLY TREATED.

We have been told again and again by the Liberal leaders that Alberta was not entitled to her lands, minerals, and other resources.

That we were in a different position to the other provinces of the Dominion in this respect, as the Dominion purchased this province from the Hudson's Bay Co. and was therefore entitled to the land.

That we were not capable of administering our vast resources and therefore the Dominion government could not entrust them to the people's care.

That a cash subsidy of a little over \$900,000 a year was far preferable anyway to control of our lands, minerals, forests, fisheries, waterways and other resources.

And they had many other pithy excuses not worth mentioning here.

Now it appears that the Liberal party has a different rule for provinces governed by Conservatives and those governed by Liberals.

The Winnipeg Free Press, the most prominent Liberal paper west of the Great Lakes, says in the confidence of the Laurier government said a few days ago:

"It is for the Roblin Government to ask, as the Liberal party of Manitoba stood pledged to ask, if the result of the polling had been to place a Liberal government in power in this province, that the territory thus added to Manitoba should be added with all its natural resources—that is to say, that all the lands, all the timber, all the minerals, and all the fish in the interior lakes should be declared to be the property of the Province of Manitoba."

"It is plain that a proposition of this kind, made by the Government of Manitoba, will be acceptable to the Government of the Dominion. Premier Roblin and his colleagues have for campaign purposes sought to make much of the fact that in the draft bill and in the resolution passed by the Dominion Parliament in July, 1908, to form the

basis of the draft bill, it is stated that the Province is not to enjoy the use of the lands. But, as Sir Wilfrid Laurier demonstrated clearly in his review of the constitutional status of the whole matter, that was made necessary by the express provision of the Manitoba Act of 1870, the constitutional act creating this Province, when Sir John Macdonald was Prime Minister of Canada. The draft bill had to conform with that Act in its terms, but, as Sir Wilfrid pointed out, the basis of a mutual agreement between the Province and the Dominion in regard to the lands was provided. Such agreement and consent is an essential condition to anything being done; and an agreement between the Province and the Dominion is to take the form of a transfer of the lands and all the natural resources, there will be no difficulty in securing the necessary legislation at Ottawa to enable this to be done.

"It rests with the Government of Manitoba to act in a sensible and businesslike manner to secure that settlement. The only obstacle in the way of its settlement has been the determination of the Government of Manitoba that it shall not be settled, but kept unsettled as a political 'issue.' It can only be settled by mutual consent and agreement. That Sir Wilfrid Laurier has been ready all along to agree to a settlement on this basis of transferring the lands to this Province has made clear. In his speech in the House of Commons on April 27 last he announced explicitly that he was ready to consider a proposition from the Government of Manitoba dealing with either the lands, or money in lieu of the lands."

Thus in Manitoba, the only other province in Canada besides Alberta and Saskatchewan deprived of its lands, can have them by asking and is urged to ask by a Liberal paper. Yet Liberals in Alberta, who have given away those rights, say we have no right to our resources and in any case we are getting better terms than if we had our lands.

The Liberals of Alberta are the only bunch in Canada making this claim to-day.

The Advocate last week said "the citizens will be very glad to see that the News has come round to have faith in the Alberta Central. 'Twas not always thus.' It then reported our squib published two or three years ago when stakes were stuck on every knoll in sight of the road west of town to make people believe the road was being surveyed. This was before an election. Nothing was heard of the survey after the election, nor is the railway being built anywhere near where those stakes were stuck.

The survey at that time was a political dodge and we dealt with it accordingly.

SIR WILFRID'S "ERRAND."

(Victoria Colonist)

It is only reasonable to expect that Sir Wilfrid Laurier will talk a good deal of politics on his western tour. It is also to be expected that he will take many things to his credit. If he abstained from such a course the public would question his mental ability. He has not set out on a prolonged summer tour simply to utter a lot of common-places remarks to mixed audiences. He hopes to strengthen the party of which he is the leader, and he may be expected to claim as much for it as is warranted by the most favorable construction of the facts. So also he need not be expected to cry "Pecoavi." From his own point of view he has managed the affairs of Canada as they ought to have been managed, and the man who does not expect him to make a claim to that effect will surely be disappointed.

He began at Winnipeg with a claim of having done much for the people of the Prairies and promised that he will do much more. He is going to give the people a waterway from the Rocky Mountains to the Atlantic coast. He does not say whether or not he will regard the shore of Hudson Bay as a sufficient complement with the latter term; but we fancy that he means a waterway to the head of Lake Superior. If this is undertaken we may also feel sure that there will be a demand for a branch of the waterway to Hudson's Bay. This is a programme of development which will appeal to the imagination of the people of the Prairie Provinces.

We are led to wonder what cor-

responding promise the Prime Minister will hold out when he reaches the Pacific coast. He will be to some extent handicapped by the fact that those persons, who claim to speak for the Liberal party here, disavowance the suggestion that British Columbia has the right to except anything more than she has already received; but we have a suspicion that the Prime Minister does not entrust the handling of his "bag of tricks" to what an eastern politician used to call the "forecastle members of the cabinet." To change the simile, he seems to like to have the joker always up his sleeve, and to do him justice it must be said that he knows how and when to play it. Sir Wilfrid told the people in Winnipeg that his "is not a political errand." Of course it is not. When did the people in office admit that they went abroad in the land on political errands? We are all alike in that way. We go forth for purely patriotic objects, but we "bear precious seed with us," and we sow it so that it will ripen into votes. We are always careful to state the case so that, if any mere politicians can turn what we say to good advantage for the party, they will have no difficulty in doing so. The tour promises to be an illuminating one, especially as to the manner of winning political capital on a non-political errand.

THE WEST AND THE TARIFF

In connection with the Laurier tour of the Western Provinces an expression of opinion on the tariff was solicited from Western members of the Dominion Parliament by the Grain Growers Guide of Winnipeg. All those from whom opinions were obtained, with one exception, declare in favor of a lower tariff generally, and this is in favor of a reduction in as far as articles required by farmers are concerned at least.

Mr. Lake, Qu'Appelle, says the tariff is higher than is justified either from a protection or a revenue standpoint; and speaking of the agricultural implements duties in particular, says the fact that the export of implements exceeds imports warrants the belief that this industry "could hold its own without any protection at all."

Mr. MacNutt, Saltcoats, says that the giving of free or cheap land to encourage settlement should "be supplemented by cheap tools to work the land with." He therefore favors a lower tariff as a means of securing competition between American manufacturers and domestic combinations.

Mr. Turf, Assiniboia, says he is and always has been in favor of lower duties, and that he will continue to work along these lines.

Mr. McCraney, of Saskatoon, declares himself in favor of a reduction of the tariff.

Mr. White, of Victoria, Alta., makes the same declaration. Mr. Herron, of MoLeod, avers that "the reduction of the tariff on agricultural implements is a crying need in the Western country."

Mr. Douglas, of Strathcona, says that in his judgment "the reduction of the tariff on certain lines of goods largely used by the farmers of the West is the most vital question affecting the West to-day."

Mr. Schaffner, of Souris, sent his speech in favor of a reduction in the duty on agricultural implements from 17½ to 10 per cent, as evidence of where he stands.

Mr. Roche, of Marquette, says he is a moderate protectionist, but at the same time he believes there are a number of articles bearing too high a rate of duty which might be reduced with advantage to the agriculturalists of Western Canada, and he specifically mentions agricultural machinery.

Of those who have given opinions, four—Messrs. Lake, Herron, Schaffner and Roche—are Conservatives, while the remaining five are Liberals. This indicates practical unanimity on the part of the Western Provinces, regardless of party lines, in favor of tariff reduction.

SHOULD EVAPORATE.

(Calgary Albertan)

A man named Poole, of Lacombe, writes to the Toronto Globe a very untruthful and grossly exaggerated report of crops in Southern Alberta. It is not too much to say that it would be much better for all concerned in the warm weather if Poole dried up.

In 1896 the Dominion expenditures called for \$7 per head of our population, or \$35 per family; but by 1909 those expenditures call for \$19 per head, or \$95 per family. And Laurier's work is not yet finished.

Pine Lake vs. Calgary.

The Calgary cricket club visited Red Deer to play the Pine Lake club Friday last. The game was called at 12.30 sharp. Pine Lake batting. Spick and Johnson bowled the entire innings and disposed of the Pine Lake team for the small score of 59. C. M. Wright alone playing the attack of Calgary with any confidence. Going in second wicket he carried off his bat for a meritorious 25. An unfortunate accident occurred, C. E. Atter being struck by a fast ball from Spick, which necessitated him retiring for a time when he was well set.

Calgary team did better at bat. C. Hall secured 25 and the total was 24 higher than Pine Lake's. Pine Lake going in again could do nothing with the attack of P. Johnson, who carried all before him, his analysis reading 7 wickets for 13 runs, and the whole side was out for 29, leaving Calgary only six runs to get. This they did with the loss of one wicket, leaving a win for Calgary by nine wickets.

Red Deer took two more victories to their credit on Tuesday by defeating Strathcona in both ends of a double header. The first game was a close contest, the home side winning, though a good game, was hardly as fast as the evening game. The box score was as follows:—

Strathcona 630/12000
Red Deer 030/430* 11 1 4
Batteries, Crab, Spiesman and Johnson, Wagner and Turner. Earned runs, Strathcona 5, Red Deer 5. Two base hits, Spiesman, Hardy, Crab, Johnson. Bases on balls off Crab 1. Struck out by Crab 4, by Spiesman 1, by Wagner 10. Left on base Strathcona 6, Red Deer 5. Double play, Whitty to Martin. Sacrifice hits, Turner (3). Time 1.50. Umpire Wallace.

The evening game was one of the fastest exhibitions of ball ever seen here and resulted in another win for the Reds by a score of 7 to 3. The game was never in doubt, as Washington had the advantage in his mercy and also received all support from the field. The box score was as follows:—

Strathcona 1000/1001 3 5 6
Red Deer 022/111* 7 10 6
Batteries, Callahan, Spiesman and Johnson, Washington and Turner. Earned runs, Strathcona 0, Red Deer 3. Two base hits, Turner. Three base hits, Spiesman. Bases on balls off Callahan 1, off Washington 3. Struck out by Callahan 1, by Spiesman 4, by Washington 9. Left on bases Strathcona 7, Red Deer 4. Double plays, Washington to Martin. Hits off Callahan 5 in 5 innings, off Spiesman 5 in 4 innings. Sacrifice hits Martin, Washington.

A rather peculiar thing about the Strathcona lunch was their team consisted of brother Spiesman from Bitter Lake, three men from Leduc and two from Edmonton.

Edgington's star catch out in right field. Had he missed it the score would have been tied. Hewson in right field filled a weak place on the team and was there with the goods. He made four hits. Edgington made three two baggers and a hit in four times to bat in the afternoon, and Turner made four hits in four times up in the evening.

The batting averages of the team to date are as follows:—

Turner AB R H PC
Washington 38 14 19 500
Washington 42 11 18 426
Martin 34 14 14 413
Wagner 15 5 6 399
Edgington 31 7 19 387
Hewson 19 7 7 329
Mann 31 7 7 269
Whitty 33 9 7 212
Evans 24 8 4 167

Mr. E. Woodward is visiting at E. Carswell's. He is a brother of Mrs. Carswell and he will probably locate in the district.

Mr. and Mrs. Geo. Dominey returned from the Vermillion district, where they had been visiting their son Leonard for a couple of weeks, last week.

Crops look very good in this district. Hay is a little scarce but there are some good crops of tame hay all the same.

D. McKinnon and family are spending some time at Sylvan Lake.

NOTICE TO LADIES.
Hair switches made on short notice by Mrs. E. Baird. Address all communications to post office, Red Deer, July 10, 2w.1.

REPORT BRODEUR RESIGNS.

Montreal, July 22.—Liberal circles are interested in the persistent rumors that Hon. L. P. Brodeur has resigned as minister of marine to be sent to the bench. St. P. Parent, chairman of the Transcontinental, will contest St. Mary's for that position. The announcement is expected when Sir Wilfrid returns from the west.

Eckville.

Crop prospects are good in this district, despite the dry spell. Hay may prove a short crop, however, unless we get more rain.

Don't forget the usual monthly meeting of the U. F. A. next Saturday at 8. "United we stand" appeals especially to the farmers, who would seem to be considered fair game for anyone and no close season.

Mr. and Mrs. Krause gave a party at the Eckville Hotel last Friday. Everyone present enjoyed themselves.

The Eckville football team have arranged to play a deciding game with Beaver Flats on Tuesday, Aug. 2nd, at Ploox. All the local fans should go to give them a boost.

R. Brynarsen is reported to have purchased the Carney farm and to have sold his store to Oswald Fornham of Evars.

No Strike on C. P. R.

MONTREAL, July 22.—As a result of repeated conferences extending over some weeks, a definite agreement was reached last evening between the C. P. R. Company and its employees, and all possibility that the C. P. R. men will follow the example of the G. T. R. and go on strike is now removed.

Frost & Wood No. 3 Binder

Has a Strong "Back Bone"

The Frost & Wood No. 3 Binder is built to stand more hard knocks than a binder is commonly supposed to encounter. Striking a bolder or bumping over rough ground does not affect this binder. That's because the binder's back bone consists of heavy pieces of steel firmly riveted together and because the platform is connected to the main power frame by a double steel brace. It's the quality in material and workmanship that the makers put into the Frost & Wood No. 3 Binder that enables it to give three to five times as many years of service as ordinary binders.

We would like the privilege of showing you the construction of this binder. Then you can be your own judge as to its strength. We would also like to point out to you the advantages of the Eccentric Sprocket Wheel, which is found on no other binder. This Eccentric Sprocket Wheel makes mowing, more compact, easier-to-shock bundles and discharges them faster than ordinary binders. We also wish you to see the No. 3 Knott, which never hesitates an instant, no matter how hard and fast you ask it to work.

Drop in on us at our earliest convenience. We'll be pleased to see you any time. We'll have what you want, make your visit interesting, too.

COCKSHUTT PLOW CO.

(Latimer & Butterfield's old stand.) W. P. LANDON, Agent.

EXCURSION

TO—

EXPERIMENTAL FARM, LACOMBE.

Under direction of the Honourable Duncan Macdonald, Minister of Agriculture, excursions will be run to the Lacombe Experimental Farm on JULY 28th, as follows:—

Train will leave Calgary 6.45 a.m., arriving at Lacombe 11.17 a.m.
" " " Strathcona 8.45 a.m., " " " 11.35 a.m.
" " " Castor 5.30 a.m., " " " 10.00 a.m.
" " " Hardisty 6.00 a.m., " " " 11.35 a.m.
Train will return to Calgary leaving Lacombe at 6.00 p.m.
" " " Strathcona 8.45 p.m., " " " 9.45 p.m.
" " " Castor 8.30 p.m., " " " 9.45 p.m.

There will be Excursion Rates on regular trains on the Lacombe and Wetaskiwin branches. The special train from Strathcona will pick up passengers at Wetaskiwin who arrive from the branch.

For particulars respecting time schedule and fare, see posters at stations. Bring lunch baskets. Hot water supplied free of charge at Farm.

H. A. CRAIG, Superintendent of Fairs and Institutes

INDEX CANDY

Did you ever stop to think how often you are judged by the things you do? Many people realize this fact. That's why they always buy

Huyler's Quality Candy

They regard it as an index showing their appreciation of good things and a compliment to their friends.

Parker's Drug Store

sells such quality candy that if you are seen coming from there it is an index that you appreciate the best there is to be had.

PARKER'S

Drugs. (Successors to Grieve & Co.) Stationery

No Disordered Kidneys

or a Weak Bladder if You Take a Few Doses of

FIG PILLS

All Backache and Distress from out-of-order Kidneys or Bladder Trouble will vanish, and you will feel fine. Lame Back, Painful Stitches, Rheumatism, Nervous headache, Dizziness, Sleeplessness, Weakness, Sick Feeling and other symptoms of Stagnant, Inactive Kidneys and Liver disappear. Smoothing frequent Urination and all Bladder Trouble ends.

FIG PILLS are a 25 cent box of FIG PILLS. Only curative results can come from taking FIG PILLS, and a few doses mean clean, active, healthy Kidneys, Bladder and Liver—and no Backache.

For sale at all first class drug stores, 25c. a box, or five for one dollar. Parker's, drugs and stationery, special agents.

Judge Beck's Decision

In the Case of the Town of Red Deer v. The Western General Electric Co.

In his judgment, dispassionate with-out bias, the suit of the Town of Red Deer v. The Western General Electric Co., for cancellation of its franchise agreement, was decided by Judge Beck, in his decision of the 29th day of May, 1903, made between the Western General Electric Company, Limited, and the Town of Red Deer, which agreement has since been assigned by the Western Telephone Company, Limited, to you, the Town of Red Deer, on the 7th day of October, 1903, you were duly notified so to do.

By it and called for by paragraph five of the agreement bearing date the 29th day of May, 1903, made between the Western General Electric Company, Limited, and the Town of Red Deer, which agreement has since been assigned by the Western Telephone Company, Limited, to you, the Town of Red Deer, on the 7th day of October, 1903, you were duly notified so to do.

And the Company thereby released the Corporation from the franchise in the said agreement contained so far only as it may appear that the Corporation had not at the time of the assignment of the power and authority so to do.

Whether this touched the franchise so far as it related to telephone service, or reduced its term or eliminated its exclusive character, have not been investigated as it seems to me immaterial.

The agreement of the 29th of May, 1903, contained a covenant on the part of the Western Telephone Co. to the effect that it would during the term of the agreement, "twenty-five years from the 1st of January 1904 at its own cost and expense install a certain standard kind of telephone system and that the service of the said system should be maintained as well as day, and that it would furnish such service and system at the rate of \$25 per year for business telephones, payable half yearly in advance subject to a proviso that the prices thereinbefore mentioned for the service of the system should always be subject to adjustment. The plaintiff municipality and the defendant company went to arbitration for the purpose of adjusting the rates and the award made therein fixed the rates as follows: \$35 a year for business telephones, and \$25 a year for residence telephones.

Paragraph 17 of the agreement of the 29th May, 1903, is as follows: "17.—And further, that the company shall at any time hereafter fail to supply either public or private telephone service within the town of Red Deer according to the terms of this agreement, the company shall thereupon forfeit all its powers and privileges under this agreement; provided always that the condition for forfeiture specified herein shall not be enforced in default is at any time occasioned by unavoidable accident, casualty, civil commotion, riot, strike or other unavoidable cause or unavoidable delay in delivery of freight or by reason of any misunderstanding between the Government of Great Britain and Canada or any foreign power whereby it may become impossible for them to obtain the necessary supplies for the purposes aforesaid, if the company use all reasonable means in their power to overcome the difficulties and supply the necessary service according to the terms of this agreement."

In August, 1903, the defendant company notified the plaintiff municipality and its other patrons as follows: "We hereby give you notice of cancellation of your contract for telephone service... at the expiration of the current year term on the 30th of September, 1903. 'We will in the course of a few days take the liberty of mailing to you our new form of contract embodying the new rates for telephone service and if you desire to continue as a subscriber you will please execute the contract and deliver same at our office not later than September 25th, 1903, thus giving us ample time to make the necessary records.'"

The plaintiff municipality and several resident ratepayers have evidently made up their minds not to sign the proposed new form of contract—a day or two before the 1st of October, 1903, demanding in writing of the defendant company certain telephone service—apparently they had up to that time had—accompanying their demands by a formal tender of the amount required to pay for such service for six months according to the rates permitted to the company by the award. The company refused to comply with these demands unless the demanders would sign a certain form of application, containing a considerable number of "terms and conditions." They refused to sign that "or any contract." Thereupon the company removed its telephones and refused to supply any of these parties with the telephone service which they had demanded, basing its right to refuse to do so upon the ground that these parties had refused to sign the application forms submitted, to the terms and conditions of which no objection had been made. The defendants were seven in number besides the plaintiff municipality. Of these seven, subsequently one signed an application form unconditionally, three expressly without prejudice, two removed from town.

On the 9th of October, 1903, the plaintiff municipality gave the defendant company the following notice: "To The Western General Electric Company, Limited, Whereas you have failed to furnish to the town of Red Deer the telephone service and system required by it and called for by paragraph five of the agreement bearing date the 29th day of May, 1903, made between the Western General Electric Company, Limited, and the Town of Red Deer, which agreement has since been assigned by the Western Telephone Company, Limited, to you, the Town of Red Deer, on the 7th day of October, 1903, you were duly notified so to do."

thereof, and whose place at which the obligation is required to be performed lies along the line of the franchise holder's operations and who accords to the franchise holder all reasonable facilities to admit of the convenient performance of the obligation. That, in my opinion is the obligation in general terms. There may, I have no doubt, be legal grounds of excuse, such as accident, but no defence to the general obligation, if I have correctly stated it, is in question here. There are many cases in which the claim of the franchise holder may lay down reasonable conditions or regulations relating to performance of the obligation. That is no doubt so, but, in my opinion, in the sense in which I have expressed it, namely, that the customer is to accord all reasonable facilities to admit of the convenient performance of the obligation—the obligation of the consumer is not to be tested by the conditions or regulations of the franchise holder, but only by the reasonableness of his requirements to enable him to fulfill his obligations conveniently. Although these are American authorities, I believe that the franchise holder may demand a written application from the consumer. I see no sound principle for this. Even if this is so, there is, in my opinion, no right to demand more than a bald request for what is wanted. The company's franchise in this instance cannot be insisted upon payment for six months in advance. Any consumer requesting service—an oral request would be sufficient—and tendering payment for six months service at the maximum rate permitted to the company is, in my opinion, entitled to the service. A person taking that position would, of course, not be entitled to a discount for prompt payment such as is customarily given to the consumer of public utility services. A person taking that position would, of course, not be entitled to a discount for prompt payment such as is customarily given to the consumer of public utility services. A person taking that position would, of course, not be entitled to a discount for prompt payment such as is customarily given to the consumer of public utility services.

Considerable stress was laid by counsel for the company upon Sec. 17 of the Ordinance respecting water gas, electric and other public utilities, C. 21 of 1901. That section provides that a company before supplying, or as a condition of its continuing to supply, may require any consumer to give reasonable security for the payment of the proper charges of the company. It seems to me that this provision is wholly inapplicable to the consumers in this case paying for six months service in advance in accordance with the agreement between the company and the town.

The company, then, for the reasons I have indicated, were at fault in refusing the telephone service to the plaintiff municipality and the several individual ratepayers unless they should execute the proposed form of application. I should be of the same opinion, even if I considered, under the terms and conditions of the application expressed nothing more than the law would imply. Then

LOCAL & GENERAL.

Miss Crawford has returned to Edmonton.

P. K. Griffin is now framing pictures for the Art Portrait Co.

Mr. Donaldson, of the Northern Crown Bank, returned last from a pleasant visit to the coast.

There will be a special meeting of the Orange Lodge on Tuesday, August 2nd., at 8 p.m.

Miss Murch, of Edmonton, is the guest of Mrs. S.N. Carscallen at the Lake.

Dependable Film and Kodak Supplies (Cashman) at the Gazette-Cornett Drug & Book Store.

Dr. and Mrs. Andrew H. Weber and Miss Hattie Patterson are the guests of Mr. and Mrs. Geo. F. Root.

Allan McKenzie has the contract for the erection of the new school house in Diamond Valley School District.

The article that that Lacombe man Poole made up seems something like a man spoiling the rest of his face to make his nose prominent.

Dominion Land Surveyor McFee is slowly recovering from a severe attack of asthma. He was taken sick some three weeks ago, his heart being affected, and for some time he was very ill.

Lacombe is putting in some cement walks also. The same contractors that are putting in the Red Deer walks have control of the job. Lacombe will also have a new opera house.

A. Loisele has opened a new fruit and ice cream store at the Lake and is supplying fresh fruit daily. W. Huskins, the fruit man, is supplying Mr. Loisele 'daily' with fresh fruit and it keeps him hustling to supply the demand.

H. H. Drake's estate paid ten cents on the dollar. Mr. Drake had no cause to assign, his assets being nearly equal to his liabilities, he only being about two hundred dollars behind. It took about four-fifths of his assets to wind up the estate.

W. T. Lundy, the veteran shot of Innisfail, made a phenomenal score at Calgary last week in one of the special matches. The match was five shots at 1000 yds. in a gale of wind, Mr. Lundy making a possible of five bulls, carrying off the honors with flying colors.

The Red Deer Gun Club ordered a new trap yesterday. For some time the present trap has been giving very poor satisfaction and high scores were impossible with it. The new trap is the Ideal Leggett, the same as is used by Calgary, Lethbridge and all other first class clubs. The agent of the Dominion Cartridge Co. was in town on Monday night and took a hand in the shoot. He said it was impossible to do good shooting as the trap was played out. It was accordingly decided to replace the old trap at once.

To Fit Or Not To Fit

Any spectacle is no more adapted to your face than any rent to your body. The fit of a frame is nearly as important as the fit of the lenses. We give special attention to this feature. We have a large range of the best frames, both spectacle and eye glass, that are procurable, and our prices are right. Why not be sure, of the best?

H. H. GAETZ, Optician.

The Gaetz-Cornett Drug & Book Co., Ltd.

G. M. Willan has returned from Winnipeg.

J. H. Dempsey's little son is seriously ill.

Miss Gow, of Winnipeg, is visiting her sister, Mrs. Hutchinson.

The regular meeting of the Town Council will be held tomorrow night.

Lionel Page and his mother, Mrs. Page are spending a short time at Pine Lake, the guests of Mr. and Mrs. Lawrence.

The concrete walks are now finished on Ross avenue west, this week Ross avenue east will receive the attention of the contractor.

J. W. Martin, Inspector of Dominion Lands, of Medicine Hat, was in town the past week and spent Sunday with Capt. Cottingham.

There was no quorum at the regular meeting of the Hospital Board this month. The next meeting will be the second week in August.

Rev. Mr. Wilkinson conducted service in St. Luke's church on Sunday last, and will continue to hold services each Sunday until the return of Rev. C. W. G. Moore.

Farmers are now all busy at having and from this on they will have their hands full as some barley and fall wheat fields are showing signs of being ready for the binder.

Lacombe held their day of sports yesterday. Red Deer took up a scratch team to try for the baseball money but they went down to Alton in a good game by the score of 1-0.

The Baptist Young People's Association held a most successful picnic at Alexandra Park yesterday afternoon. There was a large attendance and a jolly time was spent by all present.

The property committee of the Public School Board is calling for tenders for the painting of the old school building, which has been pretty thoroughly overhauled.

Flour has gone up about forty cents a hundred lately, and there is a probability of it going still higher. Farmers are buying up in many cases enough for a year's supply.

Miss Miller, of the Public School staff, has been promoted to the position of assistant in the High School, and Miss Summerville of Ponoka, has been engaged to fill the vacancy on the Public School teaching staff caused by Miss Miller's promotion.

Chief Meeres, who has been attending a meeting of fire fighters in Winnipeg, had his photo in several of the papers. The chief has changed awfully since going to Winnipeg if that picture is anything like he looked there.

R. Castle has purchased the Joe Wallace residence on Victoria avenue, Geo. Randolph has purchased a farm at Hillsdown, Horace Meeres has bought the Chee Choo property on Eccles street, and Mr. Mitchell, who was looking for farm property last week, has purchased a farm east of Ponoka. All these deals were put through by Botsford & Co., real estate men.

Final Match for Michener Cup.

The final match between the School and Firemen teams Thursday night was an exciting. There was a fair crowd of spectators present, but not enough to say the game was well patronized. The play from the first was with the School team, and they played a good combination game and made many assaults on the Firemen's goal, only to be met again and again by the redoubtable Davis, who stopped low, high, corners and everything that came his way, and certainly saved the day for his team. Near the close of the first half the Firemen scored a safe goal, and in the second half they scored on what seemed to onlookers like a disputed ball, there being a foul which the referee did not see and he did not blow his whistle. There was a tie in the play and one of the Firemen carried up the ball and tried it through. What looked like a trip of Davis by one of the school team in one of the goal assaults proved to be just the opposite. Donnelly had the ball a foot in front of the goal at one corner, and made a vicious kick to send it in when Davis threw himself head first at the ball and saved the day perfectly regardless of a kick in the head, which he would have received had not Donnelly refrained in time to save disaster.

The Firemen have won the cup, and they are to be congratulated because they won it against great odds. Davis is the star who saved the day. Krause played his usual fine game for the Firemen, while Hallgren, Brydie and Hutton were well to the fore for the School. W. Hadley refereed the game, and he had a hard row to hoe, but we believe he tried to be impartial and fair to all concerned.

A. Taylor's foot is improving rapidly, and J. E. Bell can also put some weight on his foot.

Mr. and Mrs. J. Grant MacGregor are now nicely settled in their beautiful home on Gaetz Avenue south.

Leslieville.

Mr. Hopkins was called home Saturday owing to the sickness of his wife.

George Johnston has rented his farm in North Dakota for 1911.

Jack Jones was doing business in Red Deer Monday.

Geo. Wood is dealing out courtesy to the patrons of W. E. Lord's Departmental Store these days.

Anybody wishing to put up the hay on T. Johnston's quarter section 24-39-5 apply to George Johnston, Red Deer.

Paplar Ridge

The Ladies Aid have closed their meetings till September.

A large audience enjoyed Rev. Mr. Barner's sermon last Sunday afternoon. His text was taken from "The parable of the sower."

Miss Mazie Rogers returned from her trip to Montana last Wednesday.

W. R. Atkins has gone on the railroad. Mr. and Mrs. Elsie Perrier, of Montreal, are guests of Mr. and Mrs. Strong.

Current Notes.

(By a bystander.) Is Britain decadent? I heard asked of an Englishman newly arrived in the west, one day last week.

Well, he replied slowly, she is so decadent that all the powers are afraid to attack her. Germany, particularly, is in a blue funk lest she be obliged to fight.

Well, but, say, further enquired the westerner, I thought her trade was all lost or gone to the dogs.

In respect of trade, his informant replied, she has lost out of all other countries, and is, of the great nations, the only one able to-day to show a substantial surplus in her national finances, and this, moreover, without resorting to a tariff to raise the money.

It is obvious that the purchasing power of the people must be very great, dollar for dollar, when nothing is charged for tariff, and as an American recently wrote, after visiting the old land: "England looks after the interest of the person who has only a small amount of money to spend."

Now, said the visitor, comes my turn I wish Wilfrid Laurier had expressed a hope or prophecy that the Dominion will become the most important part of the Empire, and it is to be presumed that he dreams that the centre will shift to Ottawa.

Now, sir, can you tell me what our politicians to-day to administer the affairs of this Dominion along with as much, rapacity, stolidity, and ignorance of craft, as is shown by the men in public life in Britain?

The westerner slowly shook his head, but did not express any great confidence in the integrity of public life in this country.

Well, said the old countryman, it will be time enough to talk about the shifting of power from Westminster when the colonies can show that they can administer the affairs of India, Egypt, and the empire generally, as well as their own particular part, in a better and purer manner than the motherland, with her high toned public men and high standard of political morals.

Does any one assert that the United States is able to govern her outlying possessions, not to speak of her own north, with the same absence of craft, the same absence of justice, as well as their own particular part, in a better and purer manner than the motherland, with her high toned public men and high standard of political morals.

Then, again, how is it that the average Briton, outside his own land is dubbed "greasy" and is to retain the standard of private commercial honor, and respect of the verbal or spoken contract, to which he has been accustomed in the old land? "I am afraid," remarked the westerner, "that the decadence is in the character of the old country. I have to admit that all you say is strictly true" and this ended the discussion.

A Dean's Views on Prohibition

To the Editor of the News. Dear Sir:—

Will you please favor me by inserting the following in your next issue? I am aware it will meet with some opposition but it contains a great deal of sound common sense.

At a session of the Anglican Synod of the Diocese of Toronto last month when the matter was brought up of asking the Synod to again declare opposition to the granting of liquor licenses to the Rev. Dean Den Chayley described the clause as "lunatic." "The Christian Church," he said "exists to preach the Gospel. We do not find in any word of our Lord's teaching the doctrine of prohibition. We are going mad on this subject of prohibition, not only in one but in many ways." The Rural Dean quoted a remark made to him that this kind of action by churchmen was "making the church sink in the nostrils of the crowd of the most splendid men in the country."

"We haven't the right," he added, "to alienate the respect and support of men who do not happen to think it wise for men to be more prohibitory than God."

Thanking you for space I remain yours sincerely

A READER.

The C.N.R. plans new road to coast.

A cloudburst in Hungary caused twenty-five deaths yesterday.

A little lad named Charles McKerrol was killed by falling in front of a street car in Strathcona on Saturday evening. No blame was laid at the door of the motorman, but the weeds on the street were to blame, says the jury.

TIMELY RAIN SAVED TOWNS

Spokane, Wn., July 24.—Heavy showers during the last forty-eight hours have checked the great forest fires that were threatening towns of Wash. Ida. Montana, and B. C. and for the present practically all danger is passed.

HARD BLOW AT WOMEN IN LITERATURE.

London, July 18.—Leading book publishers were invited to give testimony before a conference on public morals and means of bettering them which is being held here. The publishers agreed that women write most of the books objectionable from a moral point of view and that women are far more eager to buy such books than men are.

HIGH QUALITY—LOW PRICE.

FLOUR WITHOUT GLUTEN IS LIKE POWDERED CHALK

Being a keen observer in matters culinary, no doubt you have observed this fact.

In your mixing bowl some flours seem sticky, elastic, almost "rubbery."

Often using the usual quantities of liquids and things, you were simply forced to add a lot more water for your dough seemed "overlight." Doing this you obtained a surprising number of loaves.

seem so good, so palatable, so dainty, light, toothsome.

It's the difference in GLUTEN that causes all this, Madam.

For Gluten is the Sticky Substance in flour which holds your dough together in bowl, and pan, and oven—causing your bread-stuffs to rise so beautifully and stay risen—keeping your bread moist and fresh ever so long, even in the dog days hot and dry.

Now, FIVE ROSES is milled purely from vigorous, fully matured Manitoba wheat, the wheat with the most gluten—the best gluten.

And gluten is everything in flour, and flour is everything in the kitchen— isn't that so? FIVE ROSES, Madam, is simply "saturated" with this Rich Gluten.

Buy a flour that has strength, health, flavor—with the most gluten.

Buy FIVE ROSES.
